

# AQWH2025 Sponsorship

**You** can make a difference for The Andy Quattlebaum Warrior Hunt 2025!! How? By becoming an AQWH Sponsor! A simple donation is all it takes. Your contribution will support Veteran Services throughout South Carolina. [The Andy Quattlebaum and Blackwell Family Foundation](#) with [South Carolina Waterfowl Association](#) will highlight and recognize [Upstate Warrior Solution](#) and [FourBlock](#). Your support will assist approximately 2,250 Veterans, Service Members, and their Family Members in South Carolina, and support a FourBlock cohort of 50-60 Veterans and Service Members in the Carolinas.

Upstate Warrior Solution is a South Carolina based organization based in the [Rupert Huse Veterans Center](#). They have a caring and knowledgeable staff that assists with healthcare, education, employment, housing, and quality of life. They have an impressive closure rate of 95.7% for the 2,204 Veterans, family members, and first responders they assisted in 2023. Additionally, they focus on resolving problems with resources and not relieving symptoms. What stands out about them is that they refuse to grow for the sake of growth. They are focused on the quality of support provided, and ensure the resources are in place to properly serve their customers. This is very different from many similar non-profits that focus on growth and lose track of why they started.

FourBlock will use the funds they receive from the benefit to help fund two cohorts in the Carolinas. This will provide an opportunity for Veterans and service members transitioning out of the military to participate in an 8-week program to develop networks, interview skills, and resumes while learning about large businesses with the outcome of employment in high demand/high paying positions for 25-30 Veterans in each cohort. They have over 4,000 alumni with a 92% placement rate within 6 months of program completion at an average salary of \$100,837. Over 500 companies have hired alumni and immediately received a retention rate 27% over the national average. They stand out because they focus on empowering top-achieving Veterans to enter the corporate world and set them up for success.
